

Paint Tray

Frames and Accessories

Roller Frames

Built for rugged use, the contractor frame is a heavy plated 5/16" steel frame, with tension-bowed 5-wire cage and impact-resistant caps. Threaded for extension handle.

Paint Tray

Built for rugged use, the contractor's paint tray is engineered of heavy-duty metal.

Trim and Traffic Line Marker

(Covers included)

For cabinets, corners, or lining parking spaces and other small area painting jobs.

Long Reach Frame & Cover

(Use only with standard Long Reach Frame)

For painting walls behind hard-to-reach places.

Extension Poles

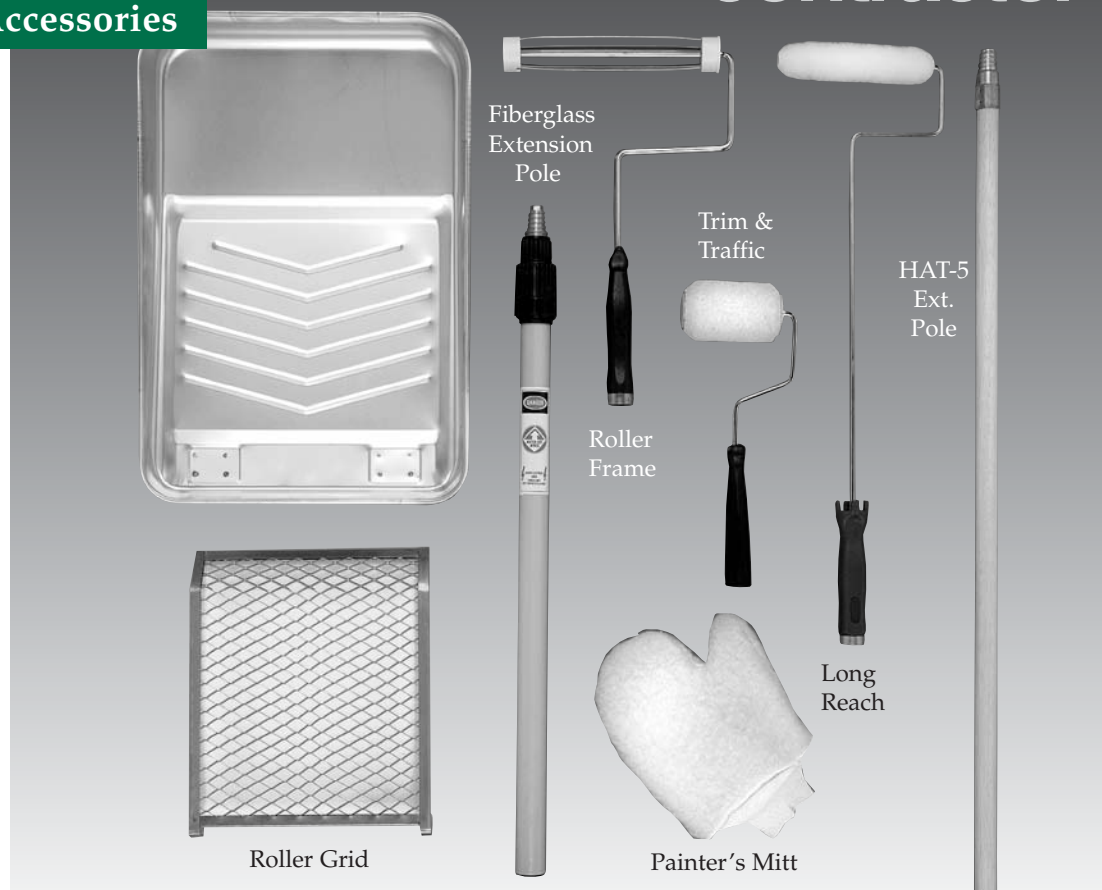

Painting high areas becomes easy with these tools. These Fiberglass poles are engineered with a metal-threaded end and a reinforcing collar. Positive lock-down prevents slippage. Highly visible handle.

Painter's Mitt

This "shed-proof" mitt has a built-in poly-liner to help protect your skin. Use with all paints.

Reinforced Roller Grid

For fast production work. Reinforced heavy galvanized metal grid fits neatly into five gallon paint pail.
